## Demonstration Planned to General Hughes

London, July 31.—General Hughes  
to be given a great reception here.  
The Mail declares his arrival is like-  
ly to be made an occasion of a mar-  
ked demonstration of public respect  
for one who has done so much for  
Canada.

General Hughes received the report  
of the royal commission when land-  
ing here, but declined to make any  
statement concerning it. Someone  
congratulated him. "Thank you,"  
General Hughes replied, "but I do  
not know who you congratulate me,"  
and he plunged immediately into a  
mass of detail work.

## Awful Holocaust Wipes Out Ontario Towns

### Inhabitants Hemmed In By Flames Are Burned to Death

Englehart, Ont., July 30.—Forest  
fires that have for some days threat-  
ened the northwestern towns and the  
outlying settlements of northern On-  
tario, yesterday and to-day culmi-  
nated in a holocaust which has wiped  
out entire communities, killed the  
fringe of large towns and leveled a  
death toll which cannot at present  
be accurately computed but which  
will range from 100 to 200. Scores  
of persons are suffering from injuries  
and many of them are likely to suc-  
cumb. The loss of life so far report-  
ed is as follows:

At Nishkua, a French-Canadian set-  
tlement, 57.  
At Cochrane, 18 dead 34 injured.  
At Matheson, 34 dead.

Troquois Falls, 15 dead and many  
injured.

Porcupine Junction, number un-  
known, but the town was wiped out  
with the exception of the station.

Ramore, 15 dead.

In addition to the known dead,  
the many outlying places which  
will materially swell the list of vic-  
tims when the rescue parties return.  
It is feared that at Tashota and  
Kivikong many prospectors may have  
been trapped.

Nushka suffered worst. It consisted  
of a score of frame dwellings and  
stores and has been threatened for  
some days. It was practically all en-  
compassed, walls of fire cutting off all  
escape to the south and north, and  
the river or lake at hand, the  
inhabitants were doomed.

Cochrane was entirely burned, with  
the exception of Second and Third  
avenues. The proximity of the town  
to the river and the fact that the  
train tracks and the lake saved most  
of the residents.

Ramore, a small settlement, was  
completely wiped out.

Matheson was totally destroyed.

## Ask For Business

ONLY one's intimate friends go to one's home uninvited, and the extent of one's calling list is determined by the number of one's calls.

In business the same facts hold. Every merchant in Red Deer knows scores of families here and in the country round about, whose custom he does not possess.

Mutual acquaintance is the first step towards getting these families as customers, and acquaintances can most surely be developed by invitations or calls made through the medium of advertisements in the Weekly News.

## TO THE MERCHANTS OF RED DEER

Show your desire for business by asking for it. A merchant who does not ask for business is supposed not to want business very keenly.

SHOP WHERE YOU ARE INVITED TO SHOP.

## City Council Meeting

The regular meeting of the City Council was held on Thursday evening last with His Worship Mayor Carswell in the chair and Aldermen Johns, Lord, Smith, Galbraith and Collison in attendance.

### COMMUNICATIONS

Nay & James, Regina, wrote that they had taken delivery of the debentures of the city \$5,000 forwarded to the Bank of Montreal at Toronto.

Commissioner Graves of Calgary, wrote that city were not in the market to purchase iron pipe at the present time.

### INSULTING LETTER TO COMMISSIONER

A letter was read by the Secretary from the British Canadian Realty Ltd., written by W. P. Bull, of an abusive and insulting nature, because he declined to take payment of taxes on Verity Park lots. These lots are in the Local Improvement District, and the secretary, J. W. Hef, collects these taxes, and the British Canadian Realty Co. have been informed of this. Commissioner Stephenson asked that a committee of the Council be appointed to inspect the correspondence with this company to show that they had always been informed in a courteous manner that Red Deer could not take these taxes and free him of any blame in the matter.

On motion of Aldermen Galbraith and Collison, Aldermen Smith and Lord were appointed a committee to deal with the matter referred to in the Commissioners letter.

G. S. Wilson, assistant secretary of Union of Canadian Municipalities, wrote the Mayor regarding the importance of sending a delegate or delegates to the annual convention of the Association to be held in Montreal, August 21, 22, and 23. No action was taken by the Council.

The City Council of Windsor sent an invitation to the Mayor and City Chief to attend the Annual Convention of Fire Chiefs at Windsor, the second week of August. Filed.

A letter was read from Lt.-Col. C. W. Robinson, explaining why the returned veteran did not come to Red Deer. He reported the 18th progressing well, and said he would be glad to welcome any of Red Deer friends should they be able to have an excursion to Sarcee Camp, and that he would try and make the visit an enjoyable one.

N. D. Keith, President of the Alberta Ladies' College wrote the Council as follows:

Dear Sirs—I have been instructed by the Board of Alberta Ladies' College, Red Deer, meeting here to-day to inform you that after having given full consideration to the question of where the work of the College should be carried on during next session, the Board have unanimously resolved that the offer made to them by the University of Alberta of the use of Assiniboia Hall should be accepted as upon the whole the most suitable in present circumstances.

The resolution adopted by the Board is as follows: Resolved, that the offer of the University be accepted for one year, and that this be resolved upon, absolutely without prejudice as to any future decision regarding the permanent location of the institution. I am further instructed to tender to you the cordial thanks of the Board for the interest shown by you in regard to the immediate needs of the College, and to inform you that any proposal which may be made with regard to permanent location of the College will meet with the careful attention of a special committee appointed for the purpose, who will welcome all suitable suggestions.

A letter was received from A. Clutterbuck refusing to pay any further money for keeping cemetery plot out and cared for until service is guaranteed by some responsible party. The Commissioner pointed out that the records failed to show that Mr. Clutterbuck had paid any money for said repairs since 1913. Some discussion took place as to whether it would be advisable or not for the city to keep the cemetery looking neat and clean. The Commissioners will report on the question.

H. G. Stone offered to give the new buildings at the Exhibition grounds, two coats of paint for \$357. If roofs are to be stained \$241 extra for 1 coat. If this work was one it would apply on Mr. Stone's taxes.

It was thought it might be better to wait until the soldiers were through with the buildings, but the question was referred to the Commissioners to report thereon.

The Council of Niagara Falls, Ont., asked that the Council agree with other Councils of the Dominion to memorialize the Dominion grant, that in granting pensions for wounds received by Canadian soldiers during this war that officers and privates be treated on an absolute equality.

Moved by Aldermen Galbraith and Collison, that this Council endorse the resolution of the Niagara Falls, Ont., Council with respect to pensions to Canadian soldiers. Carried.

Campbell, Wilson & Horne Limited asked for certain privileges to use six feet of 5th Street, south of their new building for loading purposes in connection with the proposed warehouse.

Moved by Aldermen Lord and Galbraith that a by-law be prepared authorizing the agreement asked by Campbell, Wilson & Horne, Limited in reference to the drive on south side of warehouse. Carried.

### COMMISSIONERS' REPORT

Pursuant to the recommendation of the Market Committee we called a meeting for 21st inst. at 3 p.m., to discuss market questions and notified the parties named in the report. No one attended the meeting so we

presume the market will be discontinued for the present.

In response to our request Mr. Hornby, of Clive, visited Red Deer to look into the proposition of establishing a greenhouse at Red Deer.

Aldermen Lord and later Aldermen Collison and Smith looked over the land it is suggested might be leased for that purpose and, after discussing the matter with Mr. Hornby, have drafted the following resolution: The City to lease to Mr. Hornby, his heirs, executors or assigns, for a term of twenty years at a rental of \$1.20 per acre per year a strip of land, shown on the accompanying map, lying along the north boundary of Waskasoo Park and containing approximately six acres. Should the business be discontinued for a continuous period of three years the lease would terminate. Mr. Hornby have the right to remove any buildings he might erect on the property. The lease would terminate on the removal of the buildings. Mr. Hornby would be liable for any business tax that might be levied on his business. N. H. Macdonald commenced his duties as day constable on Saturday 22nd inst. Chief Anderson left for Sarcee on Monday.

Clarke & Swaley, Toronto, solicitors for the purchasers are making a draft by-law authorizing the issue of treasury bills sold to Burgess & Co. This by-law must be submitted to the burgesses for approval. As soon as it is received, a special meeting will be called to deal with it.

We have received the proceeds of the sale of the debentures sold to Nay & James Freeman and the money deposited in the savings account.

We submit accounts for your authorization to pay.

The roads through Waskasoo Park and Gaetz Park are in bad shape for traffic. The road through the former Park can be made passable with little expense, but those through Gaetz Park will require considerable work. We would respectfully ask if we should have these put in condition for use. Owing to the sand in Gaetz Park it has not been used by the citizens as much as formerly.

J. A. CARSWELL,

A. T. STEPHENSON,

Commissioners

The report was adopted.

Moved by Aldermen Lord and Collison that the Commissioners proceed in having a lease for a term of years prepared covering that portion of the city property lying west of Nanton Avenue and north of the creek, to Mr. Hornby, of Clive, for greenhouse purposes, and that that portion lying east of Nanton Avenue be permitted to be occupied by Mr. Hornby at the pleasure of the Council and the lease be submitted to the Council for final approval. Carried.

### ACCOUNTS

Payment of the following accounts was authorized:

J. J. Malcolm, \$51; Government Printer \$7; City of Red Deer \$22.75; Imperial Bank \$240.73; W. McKenzie \$24.40; C. Anderson, \$36.37; Secretary-Treasurer S. S. Board \$100; Secretary-Treasurer P. S. Board, \$229.31; Bank of Montreal, \$60.24; Merchants Bank \$650.56; L. J. Carswell, \$25.12.

### THE HORTICULTURAL SHOW

A delegation consisting of Joseph Cole and W. T. Coote, addressed the Council on behalf of the Horticultural Society, asking the Council to make a grant of \$100 to the Society as they desired to hold a fall show on August 24. They claimed that the benches, tables and other goods of the Society had been destroyed and thought the Society should be compensated for this loss. The Provincial Government will make a grant, up to \$300, dollar for dollar given by the Society, and almost all this money would be spent in prizes. Owing to the early date of the Agricultural Society's show it was impossible to hold the show at that date.

Moved by Ald. Lord and Collison, that in consideration for losses to their property and to assist in expenses of this year's Horticultural show that fifty dollars be voted to the Society to make it possible that they hold a show. Carried.

Council adjourned about 11 o'clock.

## British Are In Complete Possession of the Second Line of German Trenches in Somme Region

Paris, July 24.—The capture of the village of Pozieres from the Germans, military officers say, means that the British are in complete possession of the German second line in the Somme region. The fight for Pozieres lasted 11 days—from July 11 to July 25. The place was defended by 20 machine guns, of which all except 30 were destroyed or put out of action by the British artillery.

A species of fort in the center of the village was defended by a company of Bavarian infantry. These troops resisted for 12 hours, and at the end of that time only four men were found alive. In a dugout close by a heap of 60 bodies remained unburied. The last defenders of the village were the men of a Bavarian battalion, who were decimated as they crossed the three hundred yards between the village and a cemetery, where they made their last, but unsuccessful stand.

## Office of the Comptroller

Ottawa, June 22, 1916

Sir—I am instructed by the Right Honorable, the Prime Minister, to inform you that it has been brought to his attention that some members of the Royal North West Mounted Police have been subjected to insult by persons who do not realize the great importance of the duties which devolve upon the force at the present time and the efficient manner in which those duties are being discharged.

The Prime Minister desires to express to Officers, Non-Commissioned Officers and Constables, his very deep appreciation of the patriotic and devoted service which they have rendered and of the faithful and efficient manner in which they are performing their important duties.

He fully realizes the great desire of members of the force to enlist for overseas service and he is aware that practically the whole force would offer their services at the front if permission could be given. This patriotic spirit is entirely commendable but all members of the force must remember that the service which they are now rendering to the Dominion and to the Empire is not less important than that which they would perform if actually serving at the front.

Further, it is a service which can only be efficiently performed by a force which has been trained in the discharge of the duties which it is called upon to undertake.

For these reasons the Prime Minister has found himself unable to consent to the retirement from the force of many officers and men who have asked that permission for the purpose of enlistment.

The Prime Minister trusts that his views on this important subject and his sincere appreciation of the services which the force is rendering to Canada and to the Empire at the present time, will be communicated to the Officers, Non-Commissioned Officers and Constables.

I have the honor to be, Sir, Your obedient servant,

(Signed) L. du PLESSIS,  
for Comptroller,  
To The Commissioner, R.N.W.M.P.,

### CRITICISM OF MUNICIPAL COUNCILS

The following splendid article in the Canadian Municipal Journal hits the nail on the head in speaking of Municipal Council work. Many men have gone into city councils with view to correct what they thought was a crying evil only to fall into line when they understood better what they were up against in trying to improve conditions.

We note that recently one of the great dailies published a letter in which the writer, to show his contempt for the government of a certain city, offered one million dollars as a guarantee that he would secure a better administration. Of course such a bet could not be taken up, but we wish it had been possible, for though it is probable that better financial results could be shown, he would lose, for it was evidently beyond the critic's outlook that the municipal government is not confined to the raising of money and its spending. There are a thousand and one details to consider that the average citizen knows nothing about. These details have been piled up as the municipality has grown, which in many instances in Canada have been at a tremendous rate, so that it is only reasonable to expect many shortcomings in our civic life. The critic might say, "let the council adapt themselves to conditions as they arise." In ordinary business this can be done, but, under our present system, in the public service there are handicaps that make it impossible at times to get over the growing difficulties. We have known business men who have been elected to municipal councils on the promise to see that certain so-called reforms and new systems were introduced in the administration, but who have in a very short time fallen in line with their older colleagues. This apparent failure is not because of the lack of ability or earnestness on the part of the successful candidate, but he has found out that there is a vast difference between public and private business; and he has also found out that the old members of the council have all the time been honest.

The great trouble that our municipal councils have to contend with today is this same detail work. In the Old Country all this is obviated by the actual administration being in the hands of the permanent officials who, as we have mentioned before in these columns, are responsible to the Local Government Board, as well as to the council. This gives ample time for the council to take up new policies for the benefit of the community, and we would suggest to those critics of our municipal councils to give more consideration to the conditions under which they work and less to the personnel, which on the whole is made up of intelligent citizens who are just as anxious to give good service to the electorate as the critics are to condemn the results. The difference is that the councillors know from experience what they are up against, and the critics don't, though they think they know all about municipal government. Constructive, not destructive, criticism is what is required in the municipal affairs of Canada.

### THE BRITISH WAY

After ravaging and devastating Belgium, Serbia, Poland and Montenegro, and leveling toll upon the inhabitants who were not killed, neither Germany or Austria will feed the paupers which they created. As a result Britain offers to supply food under the supervision of a neutral commission appointed by the President of the United States. That is the British way of doing things—dealing with human beings in a humane way. And it would be a fine story to set before the "cultured" pro-Tentons of the United States when it is necessary for British sympathizers to make comparisons. Calgary News Telegram.

### THE LIQUOR ACT

With regard to having liquor in the house, there is nothing in the Liquor Act to prohibit any person from having in his dwelling house any quantity of liquor. Section 55 provides that the fact that there is on any premises more liquor than is reasonably required for a person and his family not exceeding one quart of spirits and two gallons of malt liquor shall be deemed prima facie evidence of the unlawful sale and keeping for sale. Therefore, you may get any quantity of liquor from another person, but the moment you get it, you will be liable to a prosecution if it exceeds the above quantities and you will have to prove that you are innocent of selling or keeping for sale.

(2) A Calgary magistrate has held that the having of a larger quantity in a dwelling house was sufficiently accounted for in the case of a French Canadian. It remains to be seen whether other magistrates in the province and judges on appeal from magistrates will confirm this decision.

The average of English-Canadian born and French-Canadian born men recruited up to March 31st, 1916, is shown in compilation presented to the Senate on May 4th by Senator James Masson, of Toronto. He stated that British-born from the United Kingdom comprised 69 per cent of the total enlistments in Canadian Canadian-born English speaking 24 per cent; Canadian-born French speaking 31 per cent; and foreign-born 6 per cent.

According to a semi-official announcement the prisoners taken by the first half of the summer campaign just closing are estimated to total 350,000.

### Eckville

At last it would appear that we are to have the Telephone. The farmers on the line between Eckville and Gilby have put up their posts and the wire is now at the station. It is hoped that those living on the line to Sylvan Lake will also connect up.

The half-yearly general meeting of the shareholders of the Eckville & Gilby Co-operative Co. was held last Tuesday. The report submitted was not as favorable as in past years, and showed no profits available for distribution, but a considerable loss. With one exception the directors remain in office, and the board now consists of Chas. Kasper, President; J. J. Lundberg, Vice-President; A. Isaacson, C. Schunemann, P. Langer H. Talson, and H. W. Smith.

Paul Pykiet one of the old timers in this district, has decided to make a change, and leaves for his old home in Kansas as soon as he has disposed of his effects. He will have a sale on Thursday at 11 o'clock and the fair weather extends a hearty welcome to everyone.

Mr. and Mrs. Lewis Fitch and baby have been visiting with Mr. and Mrs. Brown.

Don't forget that there is Church service in Eckville every Sunday morning at 11 o'clock and that Mr. Fairweather extends a hearty welcome to everyone.

### KITCHENER'S SECRETARY

Sir Reginald Brooke, K.C.B., has had the great distinction of Commander of the Legion of Honour conferred upon him by the French Government. This is the first occasion on which a civilian has received this coveted reward. As Secretary to the War Office since 1914, Sir Reginald has been allowed to speak, as could a tale that would fill the Empire. For weeks and months after war broke out he ate and slept at the War Office. Confidential Secretary of Lord Kitchener, he shared the load of those dark days, and his friends marvelled that even his fine constitution did not give way beneath the terrible strain which was put upon it. Sir Reginald was born in 1854.

### STRANGE ARAB FOES

Turks' Ignorant Ally Has Strange Customs—One Virtue

The Arab fighting with the Turks in Mesopotamia has some curious ways. He takes off his shoes when he enters a house, but keeps on his hat. He reads and writes from right to left. He eats scarcely anything for breakfast or dinner, but in the evening he sits down to a hot meal swimming in oil. His seat out with him, but the ladies of the household will all the males have shaved. The Arab rides a donkey when travelling, his wife walking behind, and he laughs at the idea of giving up his seat for a woman. The Arab has one strong virtue, and that is, he is rarely seen drunkenly affectionate, is very ignorant, and has so little initiative that he rarely takes on any serious work, and he attempts to carry out any enterprise.

### Aviator vs. Zeppelin

Flight-Lieut. Brandon, a New Zealander in the Royal navy, who has put in the first claim for having chased, bombed and brought down the Zeppelin L 15 in the Thames Estuary stands to win, if awarded the prize offered, a sum amounting to \$10,000. Since Brandon put in his claim, however, many gunners and, indeed, whole batteries of the Royal artillery anti-aircraft experts along the line of flight of the airship, have put in claims. Mr. Tennant, Under-Secretary for War, informed the House of Commons that these several claims were being investigated. It was Brandon who, single-handed, rose above the Zeppelin, and in the midst of shot and shell, dropped bomb after bomb and actually saw the monster slowly descend, as he believed, the victim of his well-directed shots.

### French racing horses' names

French racing horses' names are now almost all inspired by the war. The names of favorite generals, Joffre and French, for instance, are common; battles in which the allies came out on top find favor, such as La Marne; Tipperary is also in the field; while names of the French cannon "Seventy-five," "Hundred and five," "Rimailho" are very popular. French love of names as such is shown in the names of the French papers, "Le Petit Journal," "Le Petit Parisien," "Le Petit Provençal," "Le Petit Breton," "Le Petit Normand," "Le Petit Oise," "Le ## AKED QUILTS FORD PEACE COMMITTEE

Detroit, July 26.—Dr. Charles F. Aked, formerly of Brooklyn, yesterday resigned as chairman of the American committee to the Ford neutrality peace conference at Stockholm, because, he said, the conference had utterly failed in its object of bringing about peace, and further, because to him there seemed to be no possibility that the conference, "composed of a crowd of crazy cranks and dreamers," could do anything of value towards peace.

Dr. Aked made the announcement after an hour's talk with Henry Ford, in which Dr. Aked informed Mr. Ford that he would resign unless the present peace plans of the conference underwent a complete change.

It was upon the question whether the ending of the war could be accomplished through publicity or diplomacy, that Ford and Aked split.

"As a result of lack of system and leadership, and most of all perhaps, because of its policy, the conference has, since it started, accomplished practically nothing," said Mr. Aked.

## MAJORITY OF 89TH OFFICERS NOW AT FRONT

Lts. Norman Weir and McKay Said To Be Only Two Left in England

In letters from officers of the 89th battalion it was learned that the unit was split up in three different drafts shortly after reaching camp in England. All of the officers, excepting two, have gone with their men, Lieut. Norman Weir and Geo. McKay have remained in England. Lieut. Weir has been placed in charge of a school, having been made layonet instructor. Lieut. McKay was made assistant adjutant, and is attending the clerical duties of the battalion.

The machine gun section, along with the band and stretcher bearers were left behind, receiving further instructions. Quartermaster Mooney, it is said, has been made assistant to a divisional quartermaster, while Capt. Martin, paymaster, is left in England for the present.

Capt. Rev. Bob Pearson, Capt. Goddard, Capt. Whitaker and Capt. Shouldice, have all gone with their respective companies, which were left intact. The medical examination of the 89th, prior to their going to the front, was among the highest average of any battalion ever sent to France.

The 89th were called upon to leave their camp in less than four weeks from the time they arrived from Canada, which was very unusual, as most battalions generally get from one Derby to four months training in the old country before moving to France.

For the last three days, the dispatch adds, the Serbians had been making methodical preparations to drive the Bulgarians from the positions which they had occupied, six or seven miles south of the Greek frontier.

## BULGAR POSITIONS TAKEN BY SERBS

Paris, July 28.—Serbian forces have begun an offensive against the Bulgarians in Greece, according to a Havas News dispatch, received here today from Saloniki. The Serbians have occupied a series of heights and are retaining their position despite artillery fire and counter-attacks of the Bulgarians.

For the last three days, the dispatch adds, the Serbians had been making methodical preparations to drive the Bulgarians from the positions which they had occupied, six or seven miles south of the Greek frontier.

## BRITISH NOT TIRED

London, July 26.—"Great Britain is not tiring of the war. On the contrary, the country has never been more hopeful and united," said Lord Derby, former director of the recruiting, and now under-secretary for war, in an interview to-day.

## VICTORIA CROSS WON BY BURGLAR

Manchester Ticket-of-Leave Man Made Good at The Front

London, July 23.—How an ex-convict saw his chance in the war made good was revealed by the death recently on the western front of Rifleman William Mariner, of Salford, Manchester. Mariner gained a Victoria cross several months ago for "very gallant conduct and devotion to duty in the face of the enemy."

Mariner was an adroit burglar, with several convictions against him. In fact, at the outbreak of the war he was on a ticket-of-leave. Without hesitation he made up his mind to join the army, first notifying the police authorities of his intention. To the police's credit, let it be said that they never betrayed his past. Messages of sympathy from the

King and the Queen, as well as a letter from Premier Asquith, were received this week by the dead hero's relatives.

## FARMER FOUND DEAD UNDER HIS DISC

Hanna, Alta., July 25 — The remains of James Turner, a farmer living near here, were found yesterday in a field underneath his discing machine. His neck and a leg were broken. It is believed that he fell under the machine, and that the horses ran away, all four being badly cut up when they were found. No inquest will be held.

Please notify CENTRAL PROVINCIAL COMMITTEE EDMONTON, Howard Stulchbury, Secy. OR WAR VETERANS CLUB CALGARY, Wm. Alsdark, Asst. Secy.

## THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since  
Taking "FRUIT-A-LIVES".

MR. MARRIOTT

73 Less Ave., Ottawa, Ont.,  
August 6th, 1918.  
"I think it my duty to tell you what  
"Fruit-a-lives" has done for me.  
Three years ago, I began to feel run-  
down and tired, and suffered very much  
from *Liver and Kidney Trouble*.  
Having read of "Fruit-a-lives", I  
thought I would try them. The result  
was surprising. During the 3 years  
past, I have taken them regularly and  
would not change for anything. *I have  
not had an hour's sickness since I com-  
menced using "Fruit-a-lives", and I  
know now what I haven't known for  
a good many years—that is, the blessing  
of a healthy body and clear thinking  
brain."*

## Huns Use Mace in Fierce Hand-to-Hand Fight

**Men Given Ether for Counter Attack on  
Poiziers---Duel Between Two Officers**

Paris, July 26.—The fighting in the  
fortified village of Poiziers be-  
tween the British and the Germans  
is described as follows by an officer  
who was wounded in the struggle.

"Early Sunday morning at the  
moment the signal for the attack  
was given after a frightfully intense  
bombardment, the English infantry  
rushed forward to the entrance of  
the village, and it brilliantly and  
occupied the first houses. At 11.30  
o'clock the Germans counter-attacked.  
Their onset was extraordinary,  
doubtless because their courage had  
been stimulated by ether, as one  
could tell from the odor.  
"Here the rifle played no part—  
the knife, bayonet, revolver and  
grenade were the only weapons used.  
The Germans employed a sort of  
long-handled mace, such as an Apache  
might use, not a soldier. I saw a German officer  
using one of them on a wounded  
comrade, but as he was in the act  
of striking a revolver shot laid him  
down beside his intended victim."  
**HUNS EXTERMINATED.**  
"In a ruined house a German squad  
with a machine gun was exterminat-  
ed to the last man by an Australian  
party who had followed them into  
the house. I was present at an ex-  
citing duel between two officers—an  
English lieutenant who was charg-  
ing at the head of his men, and a  
Hungarian captain. The lieutenant  
struck the Hungarian a blow in the  
chest with his sword, and at the  
same instant he received a ball from  
his adversary's revolver in the  
stomach. Disregarding his sufferings  
the lieutenant had just strength  
enough left to deliver another blow.  
This proved mortal to the Hungarian.  
Unfortunately, the lieutenant died  
shortly afterwards."

## HARDEN, HUN JOURNALISTS, URGES FOE TO ABANDON DREAM OF EARLY PEACE

London, July 25.—The Daily Mail  
says that Maximilian Harden, in the  
latest number of the *Zukunft*, dis-  
cussing the meaning of the Anglo-  
French offensive, speaks particularly  
of Britain's gigantic preparations in  
men and munitions. Harden declares  
the Germans "must reckon with the  
determination of England to keep on  
fighting until she or her enemy is  
annihilated."

**NO EARLY PEACE.**  
In an article entitled "At the tree  
of disillusion," Harden warns the  
Germans to abandon forthwith their  
childish dreams of early peace.  
"After describing the struggles  
"now raging on all fronts the like  
of which mankind has never known,"  
and telling how the grim reaper is  
mowing down a German every min-  
ute, and how "in every hour of the  
day find night 500,000 pounds of  
German treasure is being swallowed  
up," Harden asks: "Is it the enemy  
who wants peace?"

## British Offer to Feed Hun Victims

**Magnanimous Offer Make by  
Britain Through U.S. to  
Central Powers**

London, July 28.—American Ambassa-  
dor Page has cabled to Washing-  
ton the text of a letter from the  
foreign office regarding the feeding  
of civilian populations in territory  
occupied by the Germans. The letter  
says:  
"His majesty's government desires  
to settle the whole question of the  
importation of foodstuffs into terri-  
tory in occupation of the enemy.  
Therefore it makes the final propos-  
al:  
"If the German and Austro-Hun-  
garian governments will reserve  
wholly to the civil populations of oc-  
cupied territories the entire produce  
of the soil, all livestock and all  
stocks of food, fodder, and fertilizers  
in these territories, and if they will  
admit to these territories neutrals  
selected by the president of the United  
States, with full powers to con-  
trol the distribution of the whole pop-  
ulation and to transfer from 1 terri-  
tory to another surplus stock, and if  
the president of the United States  
will undertake the selections of these  
agents, his majesty's government  
will give them every assistance and  
admit into such territories any im-  
ported food supplies necessary to  
supplant native stocks, as long as  
it is satisfied that the enemy is ob-  
serving their part of the agreement.  
If this offer is refused or a reply  
delayed until the harvest in the oc-  
cupied territory begins to be gath-  
ered, his majesty's government will  
hold them responsible, and will exact  
such reparation as can be secured by  
the allied arms or enforced by the  
opinion of the United States, and  
every civilian life lost through insuf-  
ficient nourishment in the territory  
occupied."

## RUSSIAN CAPTURES

**In Asia Everything Is Coming  
in From Hospitals to Benzine**

Petrograd, via London, July 28.—  
The official communication from gen-  
eral headquarters, issued last even-  
ing, says:  
"Western front—During the battles  
between July 17 and 25, Gen. Sak-  
haroff's troops captured 34,000 Ger-  
mans and Austrians, 45 cannon and  
71 machine guns.  
"Caucasus front—At Sapkar, 20  
kilometers north of Erzingan, we  
took 5,000 hand grenades, 1,000  
shells and 600 caissons of cartridges.  
At Hastahan we captured a hospi-  
tal of 800 beds. At Erzingan we  
captured a depot of rifles, revolvers,  
bayonets and artillery munitions, to-  
gether with 1,900 pounds of petrol  
and lamp oil. The town of Erzingan  
was not damaged.  
"Haltic Sea—On Tuesday evening a  
Zeppelin dropped 15 bombs at the  
mouth of the Gulf of Finland and on  
the outskirts of the town of Abo, in  
the Åland islands, without damaging  
the ships, or shore. Shelled by our  
batteries, the Zeppelin disappeared  
southward.  
The same day eight enemy water-  
planes attacked our waterplane sta-  
tion, dropping 100 bombs."

## British Steamers Take Baltic Chance

Stockholm, via London, July 27.—  
Almost every day British steamers  
lying at Russian ports manage to  
get out of the Baltic and escape the  
German cruisers. The ships generally  
cross the Gulf of Bothnia and are  
piloted across Sweden inside the terri-  
torial limit.  
This traffic during the last few  
weeks has been considerably develop-  
ed. The ships as a rule take on  
board an entire Swedish crew and  
Swedish officers. The pro-German pa-  
pers here are urging that this traffic  
be stopped, contending that it is not  
in accord with neutrality. But the  
government has taken no action.

## Chicago Swelters With 99 Degrees

**Two Deaths and Eleven Pro-  
strations Have Already  
Occurred**

Chicago, July 27.—At 7 o'clock this  
morning Chicago, hitherto cooled by  
the lake breeze, was the hottest  
point in the United States, with the  
exception of Yuma, Arizona, with a  
temperature of 84. The lowest tem-  
perature of the night was 83; the  
highest on record of the local weather  
bureau. Throughout the day the  
temperature steadily mounted, reach-  
ing 99 at noon.  
Police report up to 1 o'clock show-  
ed two deaths and 11 prostrations  
due to heat in Chicago. At 1 o'clock  
this afternoon the thermometer re-  
gistered 99 degrees here. Shortly  
thereafter a fierce wind from the lake  
sent the temperature down and at  
2 o'clock 97 degrees was recorded.

## THE DEAD

Blow out, you bugles, over the rich  
Dead!  
There's none of these so lonely and  
poor of old,  
But, dying, has made us rarer gifts  
than gold.  
The world away; poured out the red  
Sweet wine of youth; gave up the  
years to be  
Of work and joy, and that unhop-  
ed serene,  
That men call age; and those who  
would have been  
The sons, they gave, their immor-  
tality.

Blow, bugles, blow! They brought  
us, for our death.  
Holiness, lacked so long, and Love  
and Pain,  
Honor has come back, as a king to  
earth,  
And paid his subjects with a royal  
wage;  
And nobleness walks in our ways a-  
gain.  
And we have come into our heritage.  
—Rupert Brooke

## Allies Preparing For New Advance On Hun Third Line

**This Has Been Greatly  
Strengthened Since The  
New Offensive Began and  
Will Require Some Heavy  
Artillery Work to Over-  
come.**

Paris, July 26, via London, July 27.—  
Under cover of a strong artillery  
fire, the French and British are en-  
gaged in feeling out the Hun third  
line in Picardy, which has been  
greatly reinforced and strengthened.  
A series of scattered but violent en-  
gagements, each in itself a battle of  
some proportions, marked the day.  
Especially heavy fighting took place  
before dawn this morning on many  
parts of the front, both north and  
south of the Somme. The most ex-  
tensive of these attacks were launch-  
ed simultaneously by the British and  
French on a six-mile front near Po-  
ziers to Maurepas. The German lines  
were found to be extremely strong.  
Huge numbers of reinforcements have  
been poured behind the German front,  
according to news from the front,  
and have made their presence known  
by a series of the most violent coun-  
terattacks yet delivered on this front.  
Throughout the night the Germans  
battered at the French and British  
lines, but General Haig notified the  
war office that they were uniformly  
repulsed by the British gun fire.

## CRISIS RAPIDLY APPROACHING

Military experts estimate to-night  
that more than 1,500,000 men are  
engaged in the fearful struggle in  
Northern France. The main battle  
front is a little over 25 miles long,  
though there is fighting for fully 15  
miles beyond the original limits.  
That the German general staff be-  
lieves the crisis of the battle is  
rapidly approaching is the informa-  
tion contained in a dispatch from  
Geneva, which quotes Austrian corre-  
spondents with the German army  
to that effect. A prolonged offensive  
at the pressure being exerted at pre-  
sent by the Allies "is regarded as  
impossible by the German general  
staff," says the dispatch.

## Turk Troops Flee; Ammunition Is Exhausted

**Much Comment in European  
Capitals on Effect of Fate  
of Last Great Fortress  
in Armenia**

London, July 27.—There is much  
comment in the European capitals on  
the effect the loss of the last great  
Turkish fortress in Armenia, from  
which province the Turks are said to  
be fleeing owing to the exhaustion of  
their ammunition supplies, is likely  
to have in Constantinople, and also  
as to the influence this defeat, con-  
joined with the success of the Rus-  
sians toward Brody in opening the  
road to Lemberg, will have in Greece  
and Roumania.  
Further advances for the Russian  
troops in the Slonevka river region  
are chronicled by Petrograd.

Vienna admits the falling back of  
the Austrian divisions, which, Leoben,  
near Brody, in the face of superior  
forces of the Russians, and the north-  
east of Brody the Russians  
gained advantages. In the north con-  
siderable fighting continues between  
the Germans and Russians, but no  
important changes in territory have  
resulted.  
In the Caucasus region the Rus-  
sians are reported from Petrograd to  
be still on the heels of the Turks re-  
treating from Erzingan.  
Bombardments by the Austrian ar-  
tillery in the Asiatic basin, along the  
Sonne front, and against other  
important positions in the Austro-Italian  
theatre are reported by Rome.

## Poizieres Taken, British Push on Against Enemy

**British Win Important Success---Quiet  
Reigns on French Front**

London, July 26.—The village of  
Poizieres has been captured by the  
British, according to an official an-  
nouncement made today by the war  
office. The text of the statement is  
as follows:  
"The whole village of Poizieres is  
now in our hands. West of the vil-  
lage our territorial troops made a  
further advance and captured two  
strong trenches and a number of  
prisoners, including five officers.  
Elsewhere on the battle front there  
is no change."

**FRENCH REPORT**  
Paris, July 26.—The night was  
calm on the French front south of  
the river Somme, says the official  
statement issued this afternoon by  
the French war department. In the  
capture by the French of a group of  
houses south of Estrees, on Monday,  
117 Germans were made prisoner  
and three new German guns were  
taken.

**HUNS ADMIT IT**  
Berlin, July 26, via London —  
British troops have established them-  
selves in the town of Poizieres, says  
the official statement issued to-day  
by the German army headquarters  
staff.  
Further to the east, in Forcaux  
wood and near Longueval, minor  
British attacks were repulsed. At-  
tempted attacks on Trones wood  
were observed, the statement adds,  
and frustrated by German fire.

## STRONGLY FORTIFIED TURKISH TOWN NOW CAPTURED BY SLAVS

Petrograd, July 26.—The Turkish  
fortress of Erzingan, in Central Ar-  
menia, has been captured by the  
Russians. This was announced offi-  
cially, to-day, by the Russian war de-  
partment.

**OFFICIAL REPORT**  
Petrograd, July 26.—The official  
statement announcing the capture of  
Erzingan says:  
"On Tuesday our gallant troops, un-  
der command of Gen. Udenichin,  
took in battle the town of Erzingan.  
As a result the clearing of the  
Turks from Armenia has been ac-  
complished."  
The emperor yesterday sent the  
following telegram to the command-  
er-in-chief at Tiflis: "It is with joy  
that I have heard of the taking of  
Erzingan. From the bottom of my  
heart I congratulate the heroic Cas-  
sian army upon your victory. I am  
delighted that the troops so quickly  
justified the confidence placed in  
them.—(Signed) Nicholas."

**WILL MEAN LONG RETREAT**  
Advices from Petrograd recently  
said that the Russians after beating  
off energetic Turkish attacks were  
converged on Erzingan from three  
sides and that the Russian advance  
guards were within 10 miles of the  
fortified city. The Turks were re-  
ported by Russian aviators to be de-  
stroying the railroads and supplies.  
Belief was expressed by Russian  
officials that the evacuation of that  
place had already begun and that the  
defence of the fortress was being  
conducted only with the purpose of  
giving the Turks time to withdraw  
to a new base at Sivas, 130 miles to  
the west.

The Russian official communication  
of Tuesday said the Turkish armies  
in the Erzingan region were retreat-  
ing in disorder before the irresistible  
pressure of our troops and were ab-  
bandoning along the road, cannon,  
rifles and munitions.  
According to the paper, Swiss  
firms known or suspected of doing  
business with the allies are not only  
deprived of coal and other German  
products, but are boycotted by other  
Swiss firms. The boycott is enforced  
by threats that any firm will be  
blacklisted which deals with concerns  
objected to by Capt. Schmitz.

## Immelmann's Victor is Given The D.S.O.

London, July 28.—Lieut. G. R. Mc-  
Cubbin, of the Royal Flying Corps,  
who vanquished Lieut. Immelmann,  
the German aviator, has received the  
Distinguished Service Order.  
This is the first announcement of  
the name of the vanquisher of Im-  
melmann, who has been credited with  
bringing down 15 aeroplanes. First  
Lieut. Immelmann, for his aviation  
exploits, had received the highest  
military decoration, l'Order Pour le  
Merie.  
On the evening of June 21, he was  
fighting two aeroplanes at the same  
time, according to German witnesses  
one of which he brought down. The  
successful officer of the other has  
now been made a companion of the  
Distinguished Service Order.

attention. But there is no  
reason why the twice-a-day  
job should be anything but  
pleasant.

The Sunshine is a furnace  
any one can look after with-  
out spoiling either clothes or  
temper.

The door is large enough for  
the biggest coal shovel. The  
grates are strong and turn  
easily. The ash-pan catches  
all the ashes without the need  
of shovelling. The water-pan  
is located so that it can be  
filled quickly.

Ash-dust cannot escape when the Sunshine is being  
shaken down. None of that light dust floats about the  
house or the basement.

The damper and the check draft can be regulated from  
upstairs—and perfectly too. The close-fitting doors and  
dampers hold the fire for hours without waste.
